

GENERAL INFO

DESIGNED FOR MAINS/TOWN WATER

Dual Water Filter Systems for Whole House / Building Applications

Enjoy purified water at every outlet in the house / building. These systems are designed for mains water supplies reducing chlorine, taste & odour, chemicals and sediment in your water, giving good general purpose filtration. The system provides spring-like quality water throughout the house/building and is affordable for all.

This system protects and prolongs life of appliances throughout your home/building and features long-life filter cartridges. It operates on low pressure which is important when multiple taps are used simultaneously throughout the day.

These systems do not require power to operate, and are very easy to maintain, just replace the filter cartridge every 6-12 months or when the taste and odour returns.

FEATURES & BENEFITS

- New & Improved Integrated rust-proof, anti-flex aluminium wall mount bracket®.
- Large capacity for carbon cartridge.
- Excellent chlorine reduction.
- Peace of mind with whole house filtration.
- Flow rates up to 60 litres/minute.
- Heavy duty housings for reliable whole house protection.
- Low maintenance, no moving parts.
- No chemicals.
- Chlorine, taste & odour reduction.
- Protects and prolongs life of appliances.
- No power required.
- Filter cartridges included.
- Easy to install.
